

GOLO CARSCE

Needs assessment

Session Goals

- Identify and address project threats and weaknesses
- Identify and address data gaps and needs
- Ensure proper 'feed In' of project components

Project Objectives

- Scientifically credible socio-economic climate change scenarios for the Caribbean
- Publication of outputs in one or more scientific journal
- Regional and national decision makers made aware of project outputs
- Incorporation of results of the project in national and regionally

Questions

- What are main weaknesses and threats to your project component?

- Does your work feed into other components?
 - ▣ Data format compatible?
 - ▣ Resolution?
 - ▣ Timing?

- Are you lacking data equipment or resources?

Opportunities

- How will we capitalise on opportunities that have arisen?
 - ▣ To communicate results to policy makers
 - ▣ Ensure publication of papers
 - ▣ Collaborate with other institutions and projects?

Thank you!

Thank you!
